

Racing Towards Algebra and Slope

Racing Towards Algebra and Slope, an article written by KSTF Senior Fellows [Alison Espinosa](#) and [James Town](#), was published in the October 2015 issue of *Mathematics Teaching in the Middle School*. In the article, the two discuss how they used a battery-powered vehicle as an engine to drive students' understanding of the meaning of slope. [Read more.](#)

Alison teaches mathematics at A.C. Flora High School in Columbia, S.C., and James works as a Mathematics Specialist at the Alameda County (VA) Office of Education.
